

Free Online **STEM/Entrepreneurship** **Professional Development** **Workshop Opportunity**

Believe in Ohio provides the program curriculum in a Google Classroom for teachers. This workshop will familiarize teachers with the concepts of entrepreneurship and design-thinking ideation by engaging teachers in the very resources that they can utilize with their students to develop a STEM business or commercialization plan.

Through this process of engagement, the workshop will provide instruction and activities to increase teachers' conceptual knowledge of the entrepreneurial mindset, design-thinking, and the relationship between STEM and innovation.

At no cost: 7 contact hours or 1 semester hour from Ashland University
\$180 Graduate credit will be granted upon completion of all requirements.

For more information and to sign up on: <http://believeinohio.org/> see **Teacher PD** at the top.
