

OPERATION GRADUATION 2.0

AN ENVISIONEDPLUS DESIGN LAB

REGISTER NOW FOR OGDL 2.0

**Ohio's new graduation requirements are game changers
for EVERY Ohio High School.**

North Point ESC is partnering with EnvisionEdPlus to bring OGDL 2.0 to our region since our ESC is uniquely positioned to support high school leaders as they adapt to the new expectations. Join us for OGDL 2.0 as we convene high school teams throughout the state to:

- Understand the different graduation options for the Classes of 2021, 2022, 2023 and beyond;
- Discover ways to develop or expand career and college pathways, industry credentials and apprenticeships in traditional high school settings that are essential for successful implementation;
- Complete implementation plans that build on local strengths and create new opportunities preparing EACH student for career and college success.

EnvisionEdPlus created the agenda and content with the help of Ohio Department of Education staff. MEET expert local facilitators and statewide education partners during our PRACTICAL OPPORTUNITIES FOR PROGRESS (POP) SESSIONS who will be thought partners to your team and learn how they can help you with implementation.

Click [link](#) for registration, fee, and logistics:
