

OPERATION GRADUATION DESIGN LABS 3.0

Operationalizing Graduation Plans & At-Risk Support Systems.

School boards have adopted new policies in compliance with Ohio's long-term graduation requirements. But are your schools prepared to implement (in the midst of a global pandemic)?

The **North Point Educational Service Center** and **EnvisionEdPlus** are prepared to support high school leaders as they create systems for shepherding each student towards graduation. To that end, we are co-hosting an *Operation Graduation Design Lab* next month. Together, we'll make sure you have what you need to implement your local policies effectively:

- ✓ Understand the new policies and requirements;
- ✓ Discover resources that align with schools' strategies and systems; and,
- ✓ Design systems that leverage local resources effectively.

This event is part of the EnvisionEdPlus Operation Graduation Design Lab series. Register your team of 3-5 leaders who need the time and support to operationalize graduation plans for all students.

NOVEMBER 2, 2020

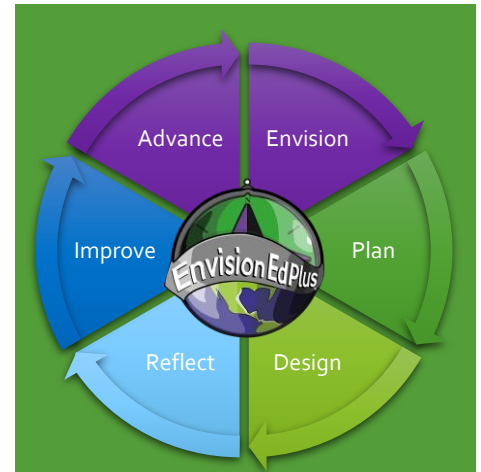

MAIN SESSION: 9 a.m. – 12 p.m.

WORK SESSION for NPESC members: TBD

WORK SESSION for non-members: 12 p.m. – 3 p.m.

This event is live, virtual. Cost is \$300 per team, or \$200 for NPESC member schools (COUPON CODE: NPESC).
